RE: SCRIGNO GROUP New CCE Shareholder

We are happy to inform you that, on October 30TH 2019, the Geron family finalised the sale of 100% of CCE to Scrigno Group – world leader in the design, production and marketing of exclusive frames for pocket doors and windows – which I have the honour to lead as CEO.

CCE is a successful company with a strong brand reputation, a steady growth path and excellent development prospects.

By joining Scrigno Group, CCE will be able to leverage a wider resource and investment basis to develop innovative products and implement an international business expansion plan, taking advantage of Scrigno widespread geographical presence. This change will enhance and perpetuate CCE entrepreneurial tradition whilst addressing the new challenges of the global market.

Sebastien Merchier will manage CCE, ensuring effective business continuity. Sebastien has been with the company since 2013 as Export Sales Manager and has played a key role in the successful development of the company. Sebastien will be supported by all the valuable CCE employees, who have contributed to the company growth. Luca Geron will remain at CCE to ensure a smooth transition to Sebastien.

We thank all customers and suppliers for the confidence placed in the company so far. We are confident that CCE, with the support of Scrigno Group, will continue to successfully develop and supply innovative products combined with excellent service.
